

EMS Manual - Section 02

ENVIRONMENTAL, HEALTH AND SAFETY POLICY

Issued by:	Effective Date	Revision	Page
David During	16 APRIL 2014	D	5 of 26

2.1 ENVIRONMENTAL, HEALTH and SAFETY POLICY

**ISO 14001 and R2, and OHSAS 18001
ENVIRONMENTAL, HEALTH and SAFETY POLICY**

DataVista strives to protect the environment, conserve natural resources, and to be an exemplary corporate citizen. To accomplish this, DataVista is committed to:

- Manage and reduce our material consumption by sorting, refurbishment, resale, testing & redistribution and data eradication.
- Reduce the environmental, health and safety impact associated with our products and activities;
- Managing used and end of life electronics based on a “reuse, recover, recycle” hierarchy both onsite and through due diligence in the selection of downstream vendors throughout the recycling chain which conform to our Focus Materials Management Plan.
- Prevention of injury and ill health for our workers and our community.
- Comply with applicable local, state and federal regulatory requirements;
- Annually review our Environmental, Health and Safety Management System to include all policies, procedures and related supporting material. Reduce waste, energies and natural resources, and to maintain a safe working environment;
- Continually improve our performance strategy to prevent pollution whenever possible;
- Communicate and train our employees, and those who work directly on our behalf, to carry out our environmental, health and safety policies; and
- Make our Environmental, Health and Safety Policy available to the public.
