

## Data Vista's Multi-Vendor Service Portal Provides IT Asset Management to Better Control Your Data Center.

**Tired of keeping track of multiple service agreements, renewal dates, and service call placement and escalation procedures?**

### Data Vista's Web Portal provides Asset Management:

Data Vista provides online asset tracking for existing and new assets, giving instant and secure access to all contract and equipment information twenty-four hours a day, seven days a week. This means a corporate user can log on, view assets at a glance, place service calls, plan renewals and request a quote – all on the same web site.

Keep track of all of your IT hardware assets – live 7x24. Know where everything is, or where it is supposed to be, who is responsible for that asset, and how much you are paying to maintain it. Know when the contract renews, plan budgets, and do it all with Data Vista.

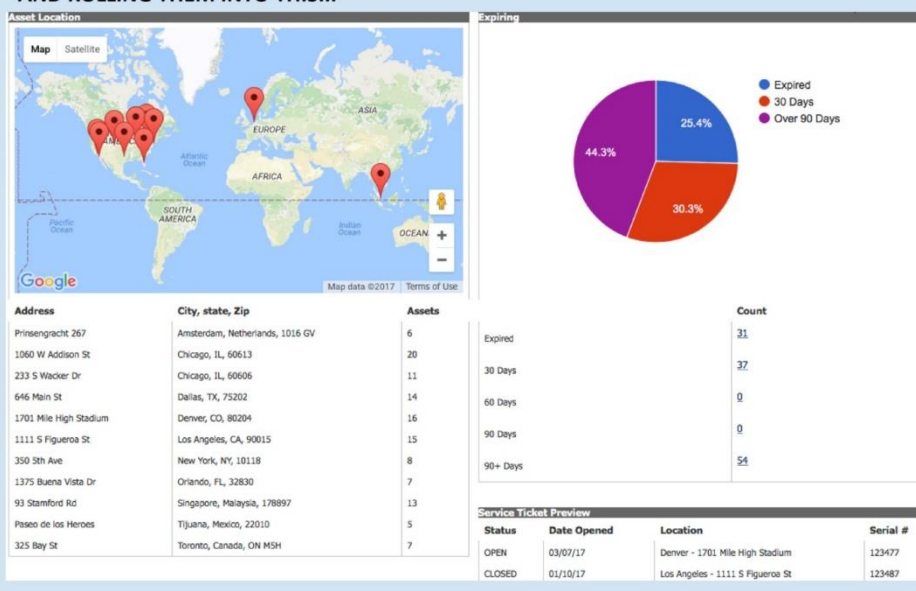

### MAKING IT MORE MANAGEABLE

BY TAKING ALL OF THESE...

No longer will you have to navigate multiple websites or 800 numbers to manage your systems. Data Vista roll's IT all into one seamless solution! Through our powerful yet easy-to-use Multi-Vendor Service portal, you can see important contract information, place calls, look up call history, track assets, and much more! It's a proven value add with ongoing visibility into each of your systems - 24x7.
