- ✓ Tested Spare Parts – Always in stock
- ✓ Coverage for EOSL and Post-Warranty Network Hardware
- ✓ Re-purposing of retired inventory to help reduce maintenance cost
- ✓ Full ITAD capabilities and Secure Data Destruction of older equipment

EXPERT SERVICE - IN STOCK SPARE PARTS - REAL TIME LOGISTIC

Data Vista has solved the problem of rising OEM costs of maintaining your End of Service Life Cisco Networking equipment.

Older Cisco models continue to be a productive networking solution for many clients around the globe. As the various legacy models of Cisco networking platforms approach the End-of-Service-Life, clients confront the challenge of meeting systems' availability requirements while Cisco support is more limited... and more expensive.

This leaves many clients scrambling for a solution to meet their support needs. Data Vista has taken the lead in this category.

Data Vista is a leader in Cisco post-warranty maintenance services.

Data Vista Networking Experts support end of life service Cisco product lines. Data Vista's offering includes **7x24x4** and **next business day on-site support**, advanced exchange, backline technical support from our Cisco experts, and the right part, at the right time, when you need it.

Below is a sample list of the most commonly available Cisco models that Data Vista supports today.

Example Cisco End of Service Models:		
Cisco ASA 5500 Series	Cisco 6000 Series IP DSL Switches	**CALL US today with your specific needs**
