

STOP Overpaying for x86 Server Maintenance Contracts

Data Vista will **Extend the life of your x86 Server** and save you money versus the OEM.

Data Vista is a leader in x86 maintenance services, supporting tens of thousands of x86 servers.

Data Vista can support x86 servers under custom-tailored service levels designed to meet your requirements. Our flexibility allows your company to adjust support levels as needed. Data Vista supports all generations of HPE, Dell, and Lenovo x86 models. This allows Data Vista to be your single point of contact (SPOC) for all your x86 needs.

Data Vista support makes the difference... x86 equipment dominates the data center, and quality support is more critical than ever...

WHY DataVista ...

Since 1994, our experienced Engineers have been providing expert support, including x86 products.

- ✓ Assist in evaluating your hardware products' lifecycle
- ✓ Make unbiased recommendations for OEM versus Third-party support
- ✓ Address all service issues
- ✓ Provide, in-house, U.S.-based, 24x7 Expert Service
- ✓ Tested Spare Parts – Always in stock
- ✓ Coverage for Warranty, Post Warranty, and End-of-Service-Life x86 Hardware
- ✓ Re-purposing of retired inventory to help reduce maintenance cost
- ✓ Full ITAD capabilities and Secure Data Destruction of older equipment

EXPERT SERVICE - IN STOCK SPARE PARTS - REAL TIME LOGISTICS

Data Vista has solved the problem of rising OEM costs of maintaining your x86 servers.

A server support contract with Data Vista allows you to keep using equipment for as long as it continues to deliver the service your business needs, allowing you to repurpose funds for other strategic projects.

Data Vista's x86 server support covers equipment in warranty, nearing or having reached the manufacturer's end of life, delivering a continuous return on investment for many years beyond EOL to better plan your next x86 upgrade.

Data Vista maintains an extensive inventory of spares for your legacy x86 systems. From cables and memory to drives and power supplies, every component in our stock is tested. We have the part you need, at prices that help you stretch your support budget.

Data Vista, a leader in x86 maintenance services!

Data Vista also supports server attached storage and network equipment from multiple manufactures

HPE StorageWorks, EVA, 3PAR, Dell PowerVault, Lenovo, Cisco, Brocade, etc...
